Frontend Developer skilled in building scalable web and mobile applications using React.js, Next.js, TypeScript, Tailwind CSS, Flutter, React Native, and Firebase. Experienced with Redux, Zustand, REST APIs, JWT, and testing tools like Jest and React Testing Library. Strong in CI/CD (GitHub Actions, Vercel, Netlify) and modern tooling (Webpack, Babel, Git). UX design background supports creation of clean, high-performance, and user-friendly interfaces in Agile environments.

Technical Skills

- Web Stack: React.js, Next.js, Redux, Zustand, Tailwind CSS, SvelteKit, jQuery, Bootstrap, CSS Modules
- Languages: JavaScript (ES6+), HTML5, CSS3, Dart
- Mobile Stack: React Native, Flutter, Firebase, Expo
- State Management: Redux, Zustand, Context API, React Hooks
- APIs & Auth: REST APIs, GraphQL, Firebase, JWT, Axios, Fetch API
- Testing: Jest, React Testing Library (basic)
- Tooling: Webpack, Babel, npm, Yarn, Git, GitHub, GitLab, Jira
- CI/CD & Deployment: GitHub Actions, Netlify, Vercel, GitHub Pages, Play Store, App Store
- DevTools: Chrome DevTools, Firefox Developer Tools
- Design Tools: Figma, Zeplin, Sketch, Photoshop
- Product & Analytics Tools: Notion, Hotjar, Lookback

Work Experience

NestAway | Bangalore (Hybrid)

SDE-2, Front-End Developer (Oct 2023 – Present)

- Built and optimized web modules using React.js, TypeScript, and Next.js for SEO-critical pages.
- Implemented server-side rendering (SSR) and static site generation (SSG) using Next.js, leading to a ~40% improvement in page load speed and SEO performance.
- Developed a cross-functional notification system to streamline workflows for Legal and Marketing teams.
- Wrote and maintained tests using Jest and React Testing Library to ensure component stability and regression safety.
- Created reusable components with Tailwind CSS and React.js, improving scalability and developer efficiency.
- Integrated Firebase-based real-time features into both web and mobile platforms.
- Developed a cross-platform codebase (React Native, Flutter) for select internal apps and dashboards.
- Worked on a key feature in the NestAway Owner App enabling property owners to convert rental listings into resale properties, built using Flutter, BLoC, and Firebase.

Tech Stack: React.js, Next.js, TypeScript, Tailwind CSS, Redux, Firebase, React Native, Flutter, BLoC

NestAway | Bangalore (Hybrid/Remote)

SDE-1, Front-End Developer (Apr 2021 – Oct 2023)

- Took ownership of a major UI/UX revamp for NestAway's core platform, leading to an 18% boost in user retention.
- Integrated Redux for better state management, minimizing prop-drilling and making the codebase easier to scale and

maintain.

- Collaborated closely with product managers, designers, and backend engineers in a fast-paced Agile environment—participating in daily scrums and bi-weekly sprints.
- Developed the migration of parts of the platform to SvelteKit for faster performance and simplified component architecture.

Tech Stack: React.js, Redux, JavaScript, SvelteKit, CSS Modules

NestAway | Bangalore

UX Designer (Apr 2015 – Apr 2021)

- Designed and rolled out reusable UI patterns that sped up design-to-development handoff by about 30%.
- Produced high-fidelity wireframes and interactive prototypes using Figma, Zeplin, Photoshop, and Illustrator, making collaboration with developers smoother.
- Applied HTML and CSS tweaks to fine-tune front-end elements and improve the user experience.
- Ran user research and usability tests to spot pain points and improve usability across platforms.
- Built a scalable design system to keep the look and feel consistent across web and mobile products.

Education

- Bachelor of Computer Application (BCA), Dr. C. V. Raman University, Bilaspur – 2015
- Diploma in Web Design and Animation, G-Tech Education
